PARAPLANNING INTELLIGENCE

ParaIQ

The paraplanning co-pilot that does the groundwork, so advisers and paraplanners can do the thinking.

ParaIQ is proprietary computer software, protected as a literary work under the Copyright Act, 1957 and under applicable international copyright law. All rights in ParaIQ, in whole and in every part, are reserved by its owners.

STRICTLY PROHIBITED

- REPRODUCTION
- MODIFICATION
- DECOMPILATION
- REVERSE ENGINEERING

The reproduction, adaptation, modification, decompilation, disassembly or reverse engineering of ParaIQ, and the extraction or removal of any of its components, in whole or in part, is **strictly prohibited** without the prior written consent of the owners. Any such act constitutes infringement and will be pursued through civil and criminal proceedings under the Copyright Act, 1957 and other applicable law.

Documents in.
Advice out.

PARAIQ · © 2026 ALL RIGHTS RESERVED

Four capabilities, one workflow

01

Extraction

Reads every client document into a sourced picture.

02

Review

Finds gaps and conflicts, and drafts the questions to close them.

03

SoA drafting

Writes the Statement of Advice, with an issues list and a trace of what each section rests on.

04

Orin chat

The in-app assistant that wraps around all of it. Ask about a case, a document or a draft in plain language.

A super-boost for the paraplanner

Paraplanner

Judgement and sign-off

+

ParaIQ

The groundwork, done fast

=

70–80%

of the work done

In under an hour

Assistance, not replacement

PARAIQ · © 2026 ALL RIGHTS RESERVED

01 · THE DIFFERENCE

The paraplanning brain

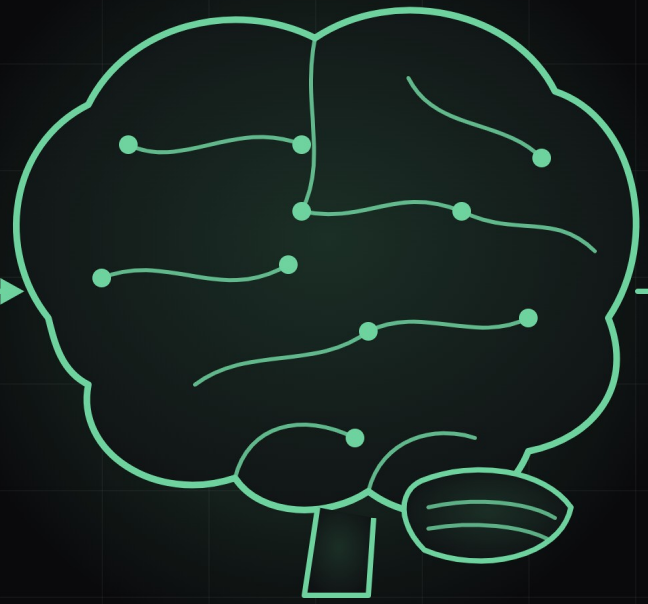

Built with the know-how of a paraplanner with years of hands-on experience, then put to work behind every task.

LAYER 1 · THREE KNOWLEDGE BASES

KNOWLEDGE BASE 01
Reading
Understands client files

KNOWLEDGE BASE 02
Review
Knows a complete file

KNOWLEDGE BASE 03
Advice
Reasons and writes the advice

ONE BRAIN · EVERY TASK

LAYER 2 · POWERS EVERY TASK

- Extraction
- Review
- SoA drafting
- Orin chat

02 · PRIVACY AND SECURITY

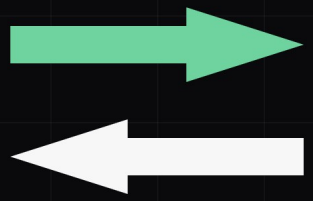

Your data stays on your machine

YOUR MACHINE

Documents, cases, drafts and backups live here

Only the text a task needs

The result, nothing kept

ZERO-RETENTION AI

Processes the task and keeps nothing

ParalQ receives **usage counts only**. Never documents, client names or content.

Zero-data-retention AI, only

Sent

Only the text a task needs

Processed

On a zero-retention provider

Returned

The result comes back to you

Forgotten

Nothing stored, nothing trained on

Strict providers only, meeting zero-retention and compliance requirements. No client content in our logs.

PARAIQ · © 2026 ALL RIGHTS RESERVED

Compliance you can read

- Client data never reaches us
- Only usage counts and technical identifiers are reported*
- Zero-data-retention AI providers only
- You keep custody of your data, on your own machine*

Privacy Policy

How ParaIQ handles data.

[add link]

Data Processing and Architecture Addendum

Technical safeguards and data flow.

[add link]

* The technical fields reported for billing (such as task type, token counts and timings) may change over time. What does not change: client data is never collected, and ParaIQ runs on the firm's own machine and network, like any local office software.

03 · HOW IT WORKS

From documents to a checked draft

01 Upload
Word, Excel, PDF and images, all together.

02 Prepare
Every file made ready to read, layout intact.

03 Understand
A structured client picture, each fact linked to its page.

04 Review
Gaps and conflicts found, questions drafted.

05 Draft
SoA written with an issues list, then checked.

NOTHING GUESSED · EVERY STEP REVIEWABLE

PARAIQ · © 2026 ALL RIGHTS RESERVED

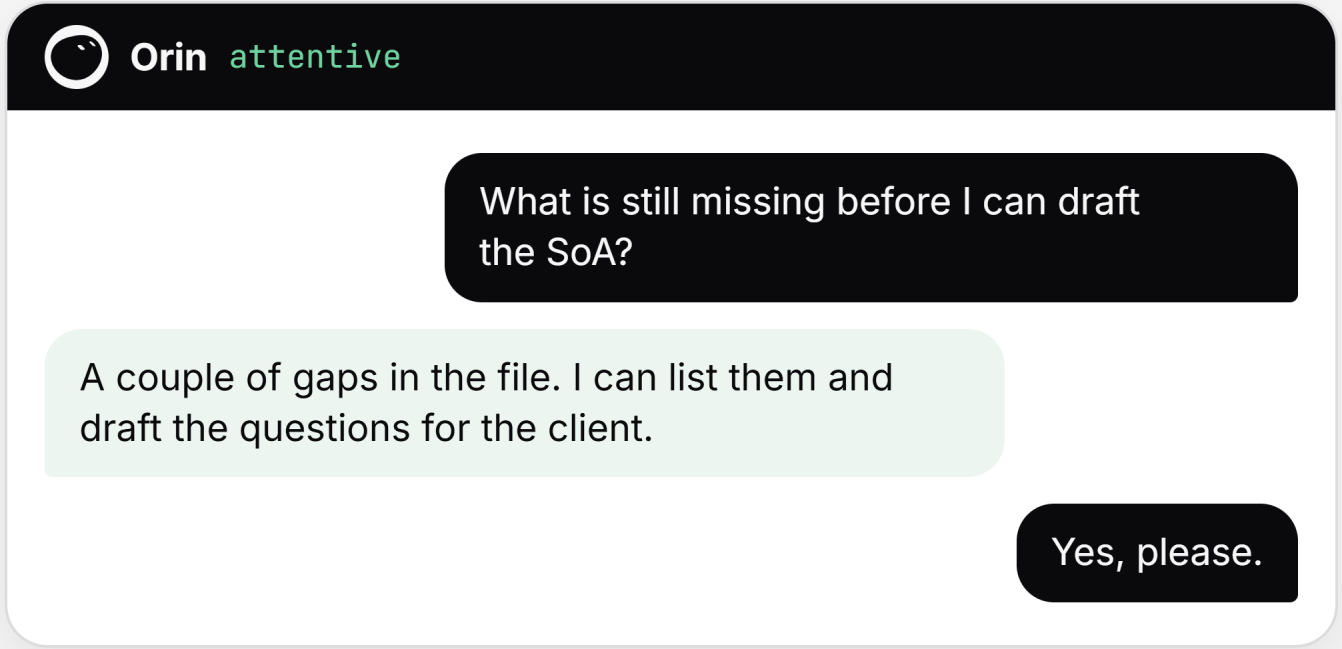

03 · HOW IT WORKS

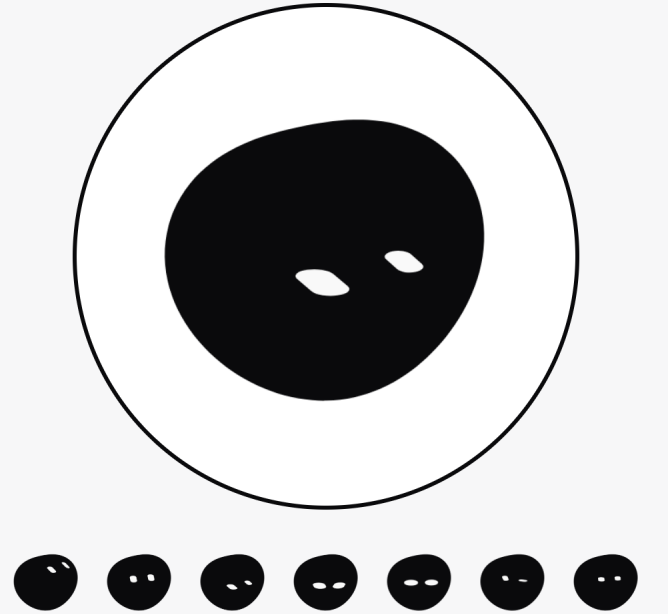

Built so the paraplanner can verify

Source-linked	Every figure points back to its document and page.
Conflicts shown	When documents disagree, both are surfaced, not averaged away.
Gaps, not guesses	Missing information becomes a question to ask the client.
You stay in charge	Dismiss, edit or add any finding before it goes further.
Automatic checks	A second pass confirms the draft is complete.
Safe by default	A backup is taken before any delete. Any run can be stopped.

03 · HOW IT WORKS

Meet Orin, your assistant

SEVEN MOODS · ILLUSTRATIVE CHAT

PARAIQ · © 2026 ALL RIGHTS RESERVED

04 · THE NUMBERS

Real usage, measured

11.9M

tokens read, about 8.9 million words

Live usage from firms using ParaIQ today. Counts only, never client content.

77

runs logged

1.7M

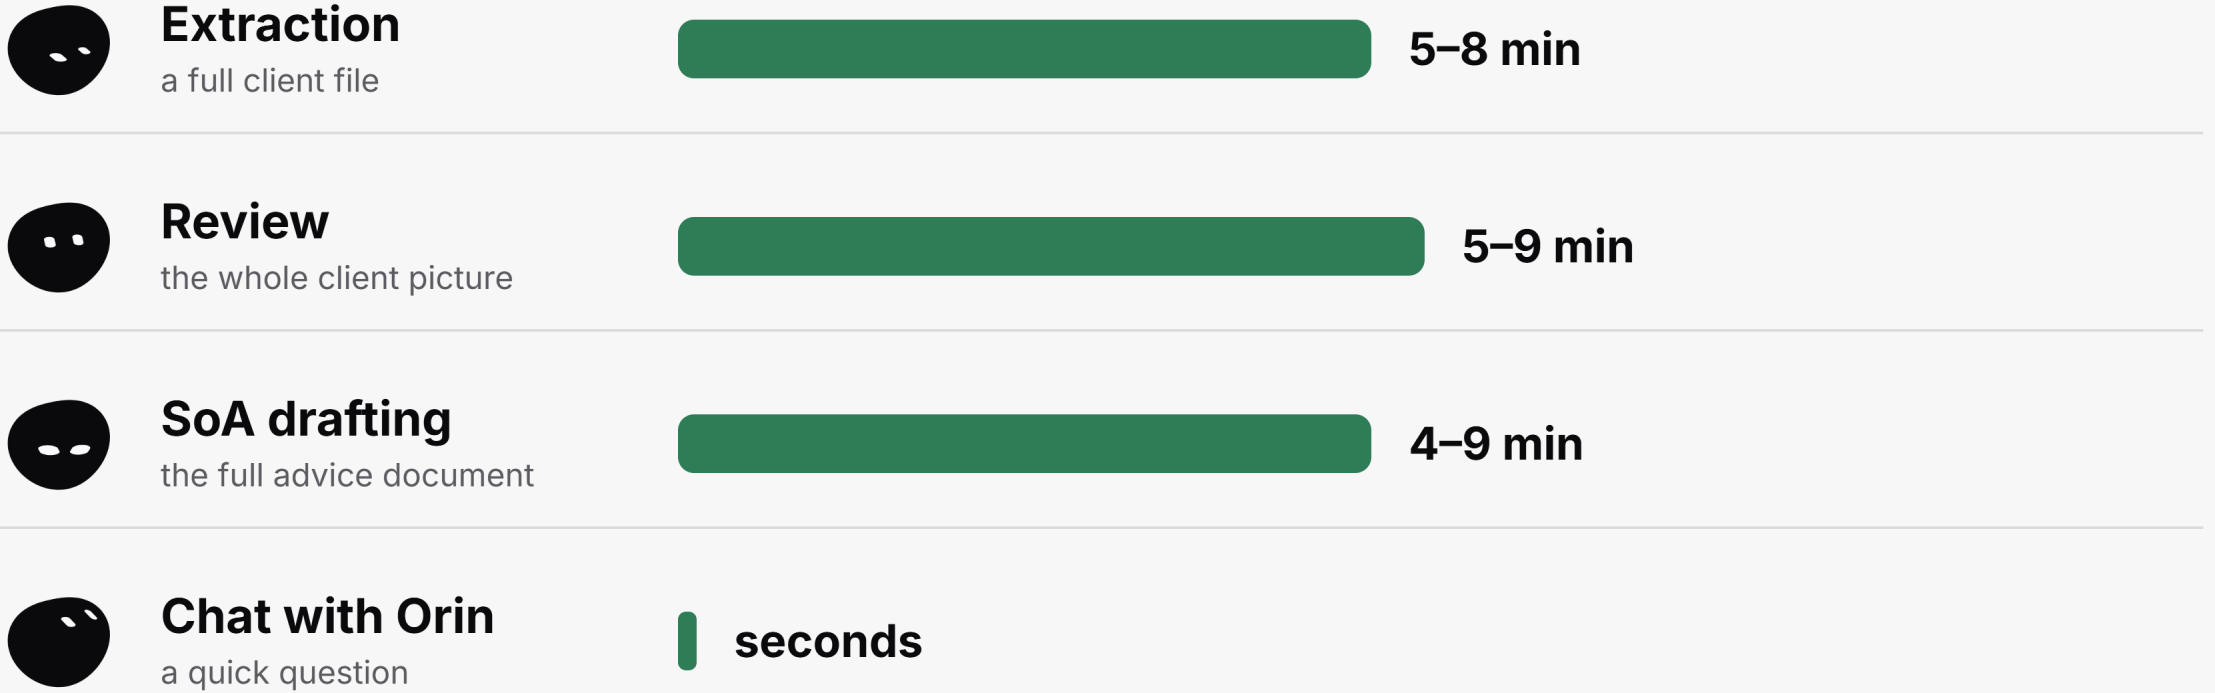

tokens written, about 1.3M words

5.4 hrs

of AI working time

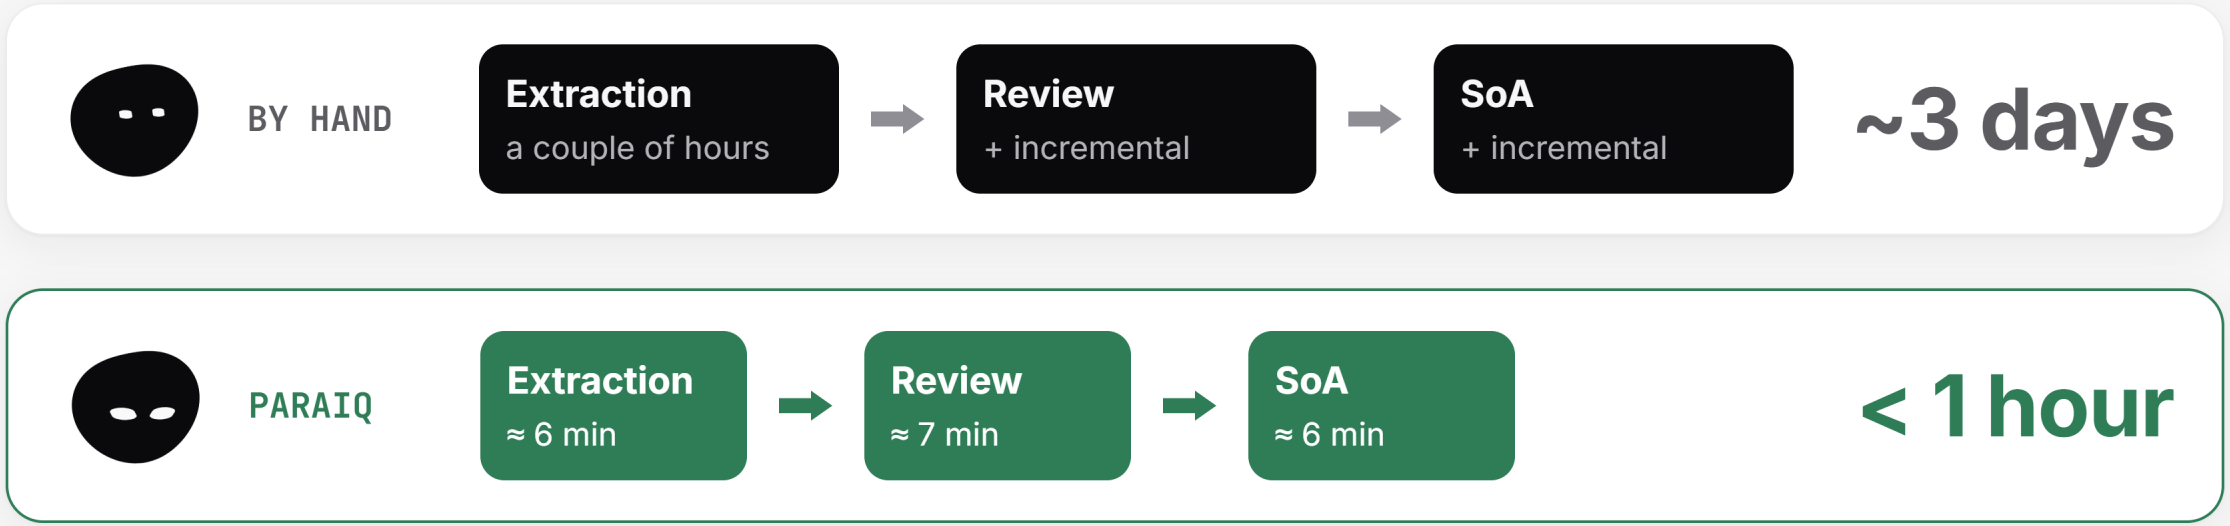

PARAIQ · © 2026 ALL RIGHTS RESERVED

Fast, task by task

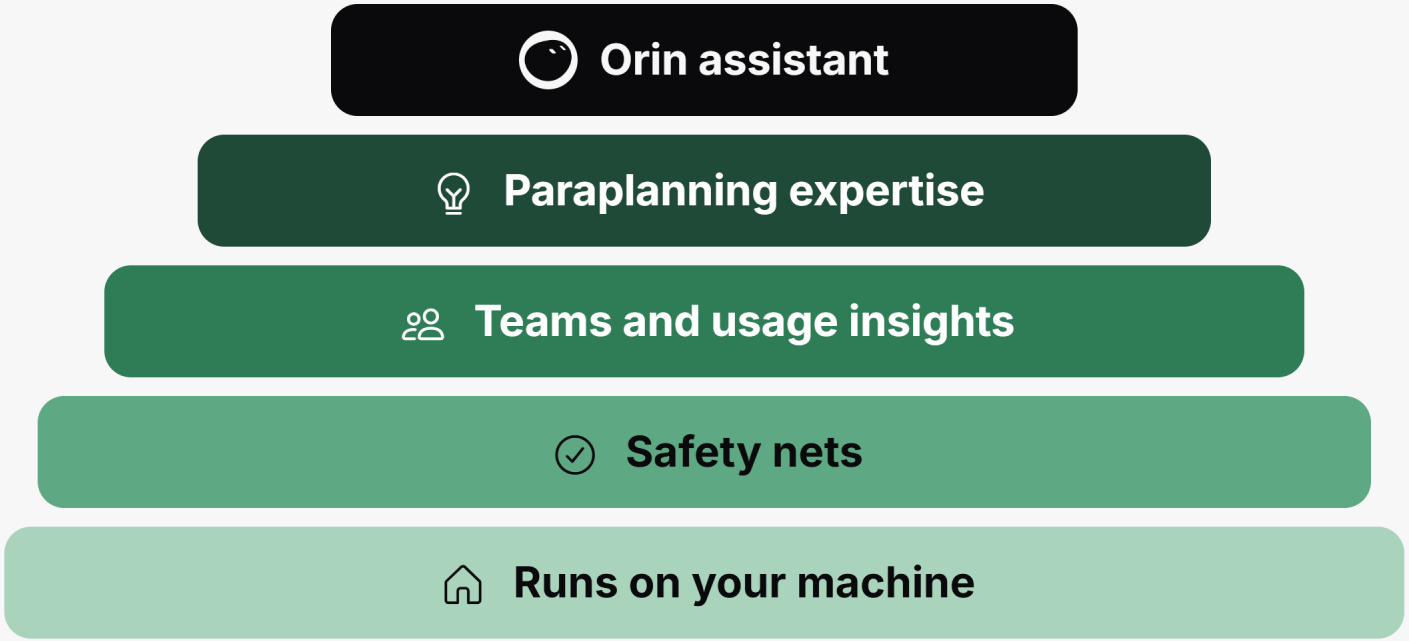

04 · THE NUMBERS

Hours become minutes

Up to 70–80% of the work done in under an hour. The paraplanner then reviews, refines and decides.

What is already built

Chat built into every case.

Know-how for reading client files and drafting advice.

Accounts, teams and a view of what ran.

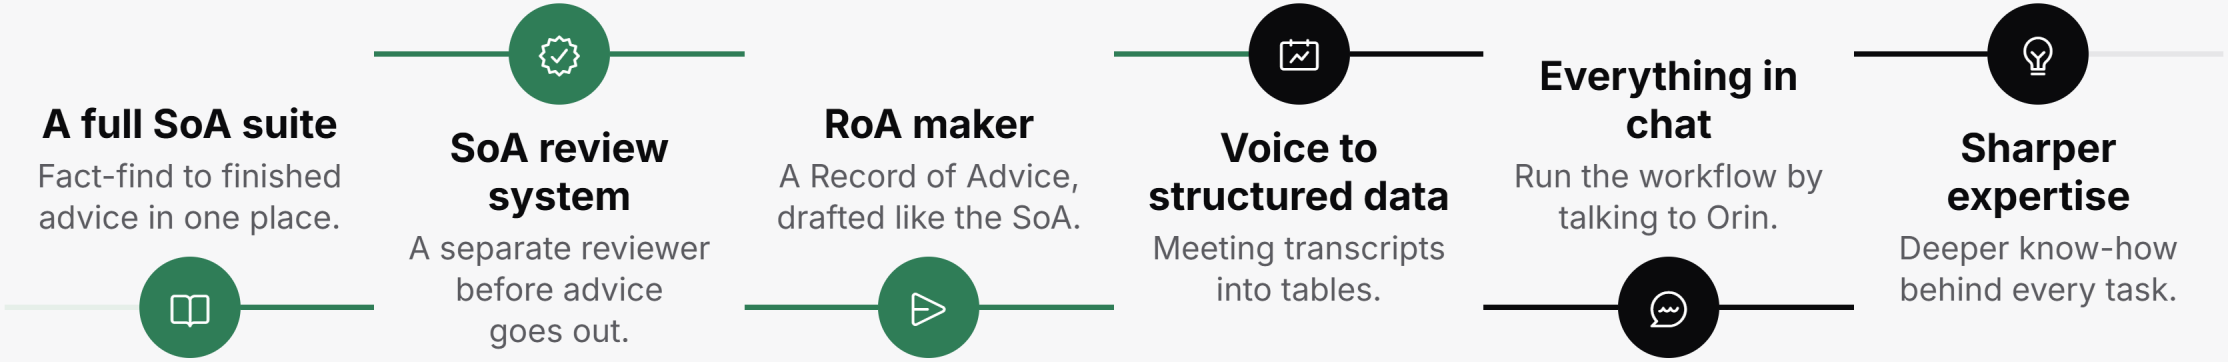

Automatic backups and runs you can stop.

One-click setup and simple updates.

PARAIQ · © 2026 ALL RIGHTS RESERVED

05 · WHERE WE ARE HEADING

Directions we are building toward

Document suite Input and intelligence

Directions, not dated promises. Firm needs decide the order.

PARAIQ · © 2026 ALL RIGHTS RESERVED

THANK YOU

Paraplanning, with a super-boost.

Local-first. Zero-data-retention AI. Built for paraplanners.
